CAROL DE LA HERRAN 1944-2013: A LIFE TO CELEBRATE

I met Carol at my Gateway Voyage program in October 2000. She had not been a residential facilitator for long and she was the first TMI facilitator to say those immortal words to me “What do you think”? It is my first memory of her and we both had a laugh about it some years later when we met again as we were preparing to bring the TMI programs to Australia.

Carol was happy to share her experiences and the knowledge she had accumulated running the residential programs and the workshops in Spain over the years. With some wonderfully funny stories amongst all the gems. As I am writing this, I remember the story of the time the authorities were threatening to “blow up” her luggage which had her equipment for a workshop in it. Some piece of equipment had turned on and was broadcasting and they did not have the key to open and inspect it.

Carol was passionate about TMI and the success of the Outreach program, which now has facilitators and workshop being run around the world. It is an attestation to her belief and dedication to the idea of “getting it out there”.
